

Tech Rider: Shadé Zahrai

Shadé uses Apple Keynote to run her presentation through her laptop.
If it is not possible to plug in her laptop then a PowerPoint file will be provided.

Shadé will require:

- Projector and screen (16:9 aspect ratio setting preferred)
- HDMI or USB-C cable to laptop connection
- Audio to play video clips embedded in her presentation
- Lapel microphone

Shadé does not use a lectern to speak and requires a clear (as possible) stage.
